Thanks for reading one man's opinion as to what encompasses Triple-A music this week. As the radio stations in this format have differing ideas as to what Triple-A is, this list covers a wide range of artists from bluegrass to alternative. This schedule in your hands is by no means all-encompassing. I fully admit to not catching everything, so I apologize if your event is not listed here.

In addition, I have done my best to proofread and double check everything, but be aware that there may be an error or two and that schedules are bound to change. If you miss a show because of what is written here, I hope you happen upon another one that knocks your socks off. See you in Austin!
